## Wave 1 Survey Fast Facts: Nursing Home Staff

The National Dementia Workforce Study, sponsored by the National Institute on Aging, is conducting the first large, nationally representative **surveys of the dementia care workforce**. Wave 1 surveys were fielded from August 2024 to April 2025. Learn how to access the dataset at **www.ndws.org**.

Wave 1 surveys were collected from 394 staff employed in 28 CMS-certified nursing homes. Organizations completed an Administrator survey and provided a roster of eligible staff, from which staff respondents were randomly selected.

Current license, certification, or registration (May hold more than one)

- Registered Nurse (10%)
- Licensed Practical Nurse/Licensed Vocational Nurse (26%)
- Certified Nursing Assistant (68%)
- Personal Care Aide/Assistant (2%)
- Medication Aide (8%)

## **Survey Highlights**

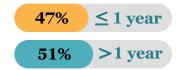

## Level of satisfaction: overall job

Are you assigned to **care for the same residents** on most weeks you work, or do they change each week?

Years worked for this employer

Number of paid jobs currently held

28%

Respondents currently working towards a certificate, license, or degree related to health care
